

UNITED STATES OF AMERICA
DEPARTMENT OF TRANSPORTATION
OFFICE OF THE SECRETARY
WASHINGTON, D.C.

Issued by the Department of Transportation on May 21, 2004

NOTICE OF ACTION TAKEN -- DOCKET OST 2004-17952

This serves as notice to the public of the action described below, taken by the Department official indicated (no additional confirming order will be issued in this matter).

Applicant: VOLGA-DNEPR J.S. CARGO AIRLINE

Date Filed: May 21, 2004

Relief requested: Exemption from 49 U.S.C. section 40109(g) to permit the applicant to operate two, one-way cargo charter flights, using its AN-124-100 aircraft, carrying helicopters on behalf of the Department of Defense, during the period May 23-27, 2004. Each flight will be from Pope AFB, North Carolina, to Victorville, California. The applicant stated that the Department of Defense urgently needs lift in order to meet a tight schedule of positioning the helicopters for military exercises, that the cargo is too large for transportation on U.S.-carrier aircraft; and that surface transportation is not feasible because of the cargo's large size and urgent need for delivery.

Applicant representative: Glenn P. Wicks, 202-457-7790 DOT analyst: Allen F. Brown, 202-366-2405

Responsive pleadings: Volga-Dnepr served its application on those U.S. carriers operating large all-cargo aircraft. Each carrier indicated that it did not have aircraft available to conduct the proposed operation and that it had no comment or did not oppose grant of the requested authority.

Statutory Standards: Under 49 U.S.C. section 40109(g), we may authorize a foreign air carrier to carry commercial traffic between U.S. points (*i.e.*, cabotage traffic) under limited circumstances. Specifically, we must find that the authority is required in the public interest; that because of an emergency created by unusual circumstances not arising in the normal course of business the traffic cannot be accommodated by U.S. carriers holding certificates under 49 U.S.C. section 41102; that all possible efforts have been made to place the traffic on U.S. carriers; and that the transportation is necessary to avoid unreasonable hardship to the traffic involved (an additional required finding, concerning emergency transportation during labor disputes, was not relevant here).

DISPOSITION

Action: Approved

Action date: May 21, 2004

Effective dates of authority granted: May 21, 2004, through May 27, 2004

Basis for approval: We are granting Volga-Dnepr's request to operate its proposed two, one-way flights from Pope Air Force Base to Victorville, through May 27, 2004. We found that its request met all the relevant criteria of 49 U.S.C. section 40109(g) for the grant of an exemption of this type and that the grant was required in the public interest. Specifically, we were persuaded that the urgent need to move the helicopters promptly to meet an urgent exercise schedule, the fact that the cargo could not be transported by surface transportation because of its large size and the potential negative impact of delivery delay; and the unique, outsized nature of the cargo, constituted an emergency not arising in the normal course of business. Moreover, based on the representations of the U.S. carriers, we concluded that no U.S. carrier had aircraft available that could be used to conduct the operations at issue here. We also found that grant of this authority would prevent unreasonable hardship to the Department of Defense. Finally, we found that the applicant was qualified to perform its proposed operation.

Except to the extent exempted/waived, this authority is subject to our standard exemption conditions and to the condition that the applicant must comply with an FAA-approved flight routing for the authorized operation.

Action taken by: **Karan K. Bhatia**
 Assistant Secretary
 for Aviation and International Affairs
